# Financial and Commercial

# RUSH TO SELL AT THE OPENING

Wall Street Affected by Advance of Discount Rate of Bank of England.

FINANCIAL WORLD SHAKEN

FORCED LIQUIDATION IN NEW YORK.

New York, Oct. 19.-The Bank of England sent a sensation pulsating through the financial markets of the whole world by its unexpected action today by ad- Ad vancing its official minimum discount rate from 5 to 6 per cent, following an advance from 4 to 5 per cent on Oct. 1. Speculative position in all markets was disturbed and the effect in New York seems to have been more acute than in foreign markets. The rush to sell at the opening of the market here was emphasized by varue fears that some undisopening of the market here was emphasized by vague fears that some undisclosed development may be behind the drastic measure thus adopted by the great central institution of English finance. Some financial difficulty in the banking world or a new phase of the Russian financial situation was most feared. Prompt inquiry established that nothing more was involved than the necessity that was forced upon the English bank to stop the drain upon its reserve fund. The immediate factor in precipitating the The immediate factor in precipitating the action was the threatened withdrawal of \$5,000,000 from the bank for shipment to Egypt. This in itself would make an in-road upon the depleted reserve supply which would suggest peremptory meas-

which would suggest peremptory measures to check it.

The downward plunge in sterling exchange in this market also opened the way for renewed negotiations for securing incoming gold in London for New York account. The effect was an immediate rebound in exchange here. There was some later reaction in exchange rates with the running up of the money rate in New York. Rates for time loans were strongly bid at 6 per cent for all dates, and efforts were reported to negotiate and efforts were reported to negotiate and efforts were reported to negotiate. some very large loans on time. Lenders were little inclined to place funds except for the longer period. Call loans advanced to 7 per cent comparatively early in the day.

The day of the weeking expression of the weeking expression.

In the day.

The forecasts of the week's currency government did not tend to ease the tone of the money market. Outgo to the interior by export seems to have amounted to nearly \$5,00,00. The shipments to Canada and a remittance to Manila have called for almost as much, but they were about offset by the gain in subtreasury operations and the receipt of foreign gold. The net loss to the banks, however, is estimated at from \$5,000,000 to \$7,000,000. The present course pursued by the Bank of England has its latest parallel in the period following the outparallel in the period following the out-break of the Boer war in 1899. After raising the official rate to 5 per cent in November the rate went to 6 per cent Preferred .....

on the last day of November. This action was not immediately effective in the open money market in London nor in the exchange rate in New York. But in the course of December gold began to go out from New York, and withdrawals continued in spite of the acute stringency in the call money market, which finally ran the rate up to 186 per cent at the stock exchange in the third week in December.
Drastic liquidation in the stock market

Der.

Drastic liquidation in the stock market N. Y. Central...
was forced before the stringeney was N. Y. O. & W... Fractically no other subject was considered in the market today, although the levying of fines on the New York Central for giving of rebates and the conviction of the Standard Oil company

Nor. & Western. 2,100 Preferred ..... 100 North Amn. . Pacific Mail . Pennsylvania conviction of the Standard Oil company in the suit for conspiracy in an Ohio court were cited as incidents likely to depress the markets. These and all other considerations were swallowed up in the dominant effect of the response in the money markets to the Bank of England action. The stock market was quiet and free from urgent pressure during the latter part of the day. Recoveries from the low point were inconsiderable and the closing tone was heavy.

United States bonds were unchanged on call.

## GRAIN AND PROVISIONS.

Chicago, Oct. 19.—An advance in the minimum rate of discount of the Bank of England to 6 per cent was largely responsible for weakness today in the local wheat market. At the close wheat for December delivery was down %c. Corn was off %c. Oats showed a loss of %c. Provisions were 2%c to 7%c higher. The flurry in the money market due to the action of the Bank of England caused active selling at the opening, and the market failed to rally from the initial decline. Other bearish factors were favorable advices concerning the Argentine crop, lower prices for cash wheat at

Metal Markets.

New York, Oct. 19.—The London tin market was unchanged at £198 for spot, but futures were 10s higher at £197 10s. Locally the price was a shade higher, with spot quoted at 43.15@43.30.

Copper was higher in London, with spot and futures both quoted at £199 12s 6d. Locally the market continued firm, with lake quoted at 21.75@22.50; electrolytic at 221.55@22.00 and casting at 21.25@ 21.75.

27½ 5s in London. 59 Iron was 3d higher in the English mar- movement of the new crop in the south-

# PRICES STEADY; SALES IMMENSE

RAILWAYS LACK CARS AND MO-TIVE POWER.

New York, Oct. 19 .- Bradstreet's tomorrow will say:

Trade continues of large volume. Prices are steady as a whole and the range of all quotations does not seem as yet to be reflected in reduced sales. In general distributive lines the reports are almost uniformly favorable. Practically all inare steady as a whole and the range of distributive lines the reports are almost uniformly favorable. Practically all in-dustries return reports of great activity. There is complaint that low prices of-fered for grain are restricting sales by farmers west and northwest, but lack of motive power and of cars is credited with holding back deliveries. There is complaint of slow trade in flour on domestic account, but the export inquiry seems to have improved.

Wool is more active and manufacturers.

some concessions are claimed to have

Business failures for the week ending Oct. 18 number 170, against 192 last week; 178 in the like week of 1906; 227 in 1904; 216 in 1903, and 194 in 1902.

Wheat, including flour, exports from the United States and Europe for the week ending Oct. 18, aggregated 4,943,841 bushels, against 3,257,886 last week; 2,831,472 this week last year; 1,066,462 in 1904, and 4,952,134 in 1901. For the past sixteen weeks of the fiscal year the exports are 52,984,768 bushels, against 22,705,310 in 1905; 20,972,248 in 1904, and 95,530,459 in 1901. Corn, exports for the week are 1,319,036 bushels against 1,202,430 last week; 76,435 a year ago and 797,898 in 1904. For the fiscal year to date the exports are 11,821.-847 bushels, against 17,269,325 in 1905, and 9,845,757 in 1904.

Run's Report.

## Run's Report. New York, Oct. 19.—R. G. Dun & Co.'s Weekly Review of Trade temorrow will

say: The advance season has broadened retail trade in staple lines, while wholesale and jobbing departments make satisfac tory returns, and there is definite im-provement in the promptness with which mercantile collections are made. Current distribution is scarcely more general than the demand for distant delivery, indicating that confidence in the futures remains unshaken. Industrial operations are on an unprecedented scale. Prices are well maintained, the general level showing a net gain since the month showing a net gain since the month opened. Many voluntary advances in wages are noted, and it is hoped that the scarcity of labor will be less disturbing

scarcity of labor will be less disturbing when farm work is finished.

Railroad blockades still delay shipments, yet earnings for October thus far surpass last year's by 75 per cent. Domestic hides are a little weaker on the whole, with only moderate sales, while Latin-American hides have gained further strength and European markets are firm in response to high prices at the German n response to high prices at the German Narrow grain markets have prevailed,

no new influences appear to affect the situation.

Liabilities of commercial failures thus far reported for October amounted to \$4.561,211, of which \$2,820,177 was in manufacturing, \$1,671,333 in trading and \$64,701 in other commercial lines. Failures this week numbered 186 in the United States, against 233 last year, and 17 in Canada, compared with 38 a year ago.

# Greenwater!

# GREENWATER. THE

That is the word on everybody's lips today, where we have made the greatest copper discoveries that the world has ever known. That is where a town has sprung up in thirty days' time-where automobiles are racing across the Nevada desert with passengers eager to reach the new Eldorado. To charter an automobile from Tonopah to Greenwater costs \$100 per day for

Some of the men who have purchased property in Greenwater are Senator W. A. Clark, the Montana copper king; John W. Gates of Wall street fame; T. F. Bonneau and Malcolm L. MacDonald, the Nevada millionaires; George Wingfield of Goldfield; Charles M. Schwab, the steel magnate; Samuel Newhouse of Utah, and, in fact, all the big ones.

GREENWATER WILL RIVAL BUTTE. OF THIS THERE CAN BE NO DOUBT. NOW IS THE TIME FOR INVESTORS TO GET IN. The Greenwater & Death Valley Copper company, for instance, was organized only a few weeks ago, and holds the first allotment of stock at \$1.00. Today the people are scrambling for the stock at \$3.25. Men from every state in the Union are making fortunes there.

# Inyo County, California.

ENGINEER'S REPOPT.

TONOPAH, NEVADA, October 3, 1906.

D. C. Aldridge & Co., Fiscal Agents, Greenwater Pay Copper Company, Tonopah, Nevada

In accordance with your request, I have made a personal examination of the Bonanza Group of five claims, situated in the Greenwater Mining District, Inyo County, California.

Inyo County, California.

The claims endline and surround the Saratoga Mines, now being actively developed and are only separated from the property of the famous Greenwater and Death Valley Copper Company, which is controlled by the Schwab Syndicate, by a fraction of territory, and adjoining the property owned and being developed by Millonaire George Wingfield of Goldfield.

Numerous iron dykes cut the ground carrying the same evidences of underlying copper as shown on all the now demonstrated properties and development will undoubtedly disclose valuable copper deposits underlying your territory.

Titles are all right with no conflicts.

Yours very truly,

H. H. HUNTER, Mining Engineer.

H. H. HUNTER, Mining Engineer, Yours very truly, LATEST REPORT SHOWS MINE MAKING DEVELOPMENT.

TONOPAH, NEVADA, October 12, 1906. Greenwater Pay Copper Company.

Gentlemen: I returned from Greenwater yesterday and in accordance with your instructions 

as good copper deposits. H. H. HUNTER. E. M., Superintendent and General Manager
